SKILLED in short...

The project SKILLED-“Sustainable Skills for Local Developer”- is an innovative European project aiming at creating the professional figure of the EESLD, European Expert in Sustainable Local Development, able to design innovative territorial development plans, interfacing with technical as well as policy level actors.

The project also intends to create a transnational skills validation method to promote transparent validation tools in the EU by supporting flexibility. Further, the SKILLED project attempts to formalize non-formal and informal competences that acquired by more experienced persons to transfer them in the training programmes addressed to young VET.

SKILLED last Transnational Partners Meetings...

The **second transnational partner meeting** took place on the 4th and 5th of October 2021 in Valencia, SPAIN. The partners continued developing the training programme and the E-learning platform, in order to be ready for the piloting during November and December 2021.

The piloting course for the EESLD profile was organised in all partner countries during November and December 2021. It raised a considerable interest among youngsters, so a lot a people enrolled. A high percentage of learners graduated the course. All course graduates appreciated positively the course structure and contents. Individual learners and teams drafted case studies about potential projects for local development of their home or native areas. The total number of participants certified in the 6 countries was 125.

The **third transnational partner meeting** took place on the 10th and 11th of February 2022 in Izmir, TURKEY. The partners reported the feedback of the Pilot Training of the Curriculum for the Expert of Sustainable Local Development implemented in each country. They also agreed on how to proceed with the Transnational Skills Validation methodology in order to show the final design during the next transnational partner meeting.

What is next on SKILLED...

The next face to face partner meeting will take place on the 28th and 29th of April in Karditsa, GREECE. The partners will finalize the implementation of the “Transnational Skills Validation methodology” and will check the results of the first Multiplier Event of the project held on the 3rd of March in Turin, ITALY.

The project has started on September 1st 2019 and will progress till August 31st 2022.
